

## QUICK DISCONNECT TERMINALS FOR A CONNECTION THAT LASTS!

PRODUCT BULLETIN v.1

### Quick Disconnect Terminals “QDT’s”

Used nation wide by repair shops both large and small, the MAC QDT terminal comes in a variety of sizes. We offer terminal wire ranges from 1/0 awg to 646 mcm. MAC offers both crimp type as well as solder terminals. Come try these “Hand Shake” terminals, for a connection that lasts.

**Q: Who uses Quick Disconnect Terminals?**

A: Locomotive Maintenance Facility Shops, Traction Motor Repairs Facilities, Transit Barns and Resellers.

**Q: Are your QDT’s equal to the competition?**

A: The MAC QDT’s are equal in form, fit and function to our competition. You can use the same crimp tooling which you are currently using without having to invest in new costly tooling.

**Q: What is the MAC Products goal?**

A: To offer a quality product, delivered in a timely manner at a competitive price.

*“Developed more than 30 years ago, the MAC Quick Disconnect Terminal is the industry leader for the mass transit and locomotive traction motor repair industries.”*

Typical Traction Motors
