

MAC Products

SWITCHGEAR AND CONTROL EQUIPMENT

When it comes to quality electrical distribution and control products, MAC is in a class by itself.

From switchboards to power lighting and panelboards, meterbanks to busway, switchboards or special control panels ... when the nameplate says "MAC Products", you know you are installing the very best.

Our products are built to the highest standards of excellence and designed to perform under the most demanding conditions. You won't find more reliable equipment anywhere, and that is why engineers around the country are specifying our products in new transportation systems and on renovation projects.
